About Huzhou Qiuxing

Your factory-backed ingredient export partner in China

Huzhou Qiuxing E-Commerce Co., Ltd. is a factory-backed export supplier specializing in botanical extracts, functional food ingredients, protein & peptide ingredients and natural cosmetic ingredients.

Supported by our family-owned manufacturing factory with nearly 30 years of production experience, we provide overseas customers with stable supply, flexible customization, documentation support and efficient export service.

We help customers source suitable ingredients for dietary supplements, functional beverages, herbal drinks, beauty drinks, nutrition powders, skincare formulations and personal care products.

Our goal is not only to supply ingredients, but also to help customers reduce sourcing risks, confirm suitable specifications, evaluate samples and build long-term supply cooperation.

Our Business Model

Factory resources + export service

Huzhou Qiuxing is not a random trading company sourcing from the open market. We are supported by our family-owned manufacturing factory and long-term production resources.

Our manufacturing side focuses on production, processing, quality control and technical support. Huzhou Qiuxing focuses on overseas customer communication, export coordination, documentation support, sample arrangement and long-term customer service.

This business model helps customers receive both factory-backed supply and professional export service.

Family-Owned Manufacturing Factory

Nearly 30 years of production experience in functional ingredients, cosmetic ingredients, protein ingredients, pearl series products and botanical extracts.

Huzhou Qiuxing Export Team

Product recommendation, specification confirmation, sample coordination, COA/TDS/SDS communication, quotation, export documentation and order follow-up.

What We Help Customers Solve

More than products - we help customers reduce sourcing risks

- Unstable quality between sample and bulk order
- Unclear product specifications
- Difficulty customizing powder or liquid forms
- Incomplete COA, TDS or SDS documents
- Slow communication on technical questions
- Lack of application understanding
- Unclear packaging and delivery arrangements
- Limited support for trial orders or sample evaluation
- Unstable long-term supply

Factory-Backed Supply Supported by our family-owned manufacturing resources.	Stable Quality Production and quality control support from long-term manufacturing resources.
Flexible Customization Powder/liquid forms, extract ratio, active markers and packaging options.	Export Documentation COA, TDS, SDS and specification support available upon request.
Application-Oriented Service Product recommendation according to supplement, beverage, food or skincare applications.	

Manufacturing Support

Backed by a family-owned manufacturing factory

Behind Huzhou Qiuxing is our family-owned manufacturing factory with nearly 30 years of production experience in functional ingredients, cosmetic ingredients, protein ingredients, pearl series products and botanical extracts.

This manufacturing background enables us to provide stable factory-level supply, flexible customization and better technical communication for overseas buyers.

Production Experience Nearly 30 years of production experience in ingredient processing.	Product Resources Pearl series, protein series and botanical extract series.
Processing Support Powder and liquid ingredients, extraction, concentration, filtration, spray drying and fine processing.	Export Experience Manufacturing resources with overseas supply experience across multiple markets.

Quality & Documentation Support

Reliable documentation is important for ingredient buyers

Depending on product type, specification and customer requirements, we can support documents such as COA, TDS, SDS, product specifications and packaging information.

Available Documents COA, TDS, SDS, product specification sheet, packaging information and sample COA upon request.	Quality Indicators Appearance, odor, solubility, moisture, pH, active marker, protein content, microbiology and heavy metals depending on product.
Certificates & Qualifications ISO9001:2015, ISO22000:2018, GMP-related qualification and export food production enterprise filing may be supported according to available documents.	
Document subject note For products produced under our manufacturing factory, certificates and production documents may be issued under the manufacturing factory name. Huzhou Qiuxing is responsible for overseas sales, export communication and customer service.	

Product Portfolio

Three main product series

Botanical Extract Series For dietary supplements, functional beverages, herbal drinks, food formulations and skincare applications.	Protein & Peptide Series For beauty drinks, nutrition powders, dietary supplements, functional foods and cosmetic formulations.	Pearl Series For skincare formulations, beauty concept products and specialty natural cosmetic ingredient applications.
---	---	---

These three product series allow us to support customers in multiple industries, including supplements, functional foods, beverages, cosmetics, personal care and beauty-from-within products.

Botanical Extract Series

Plant-derived ingredients for supplement, beverage, food and skincare applications

Our botanical extract series includes plant-derived ingredients for dietary supplements, functional beverages, herbal drinks, food formulations and natural cosmetic applications.

We support different product directions according to customer requirements, including powder form, liquid form, extract ratio, active marker content, food grade, cosmetic grade, packaging and documentation.

Customization Options	Representative Products
Powder/liquid form, extract ratio, active marker content, food/cosmetic grade, solubility requirements, packaging and documents.	Monk Fruit, Licorice, Honeysuckle, Ginger, Astragalus, Green Tea, Ginseng, Reishi, Pueraria, Aloe Vera, Chamomile and Centella.

Botanical Extract Product List

Clear product list for quick buyer review

Product Name	Available Form	Specification Direction	Applications	Documents
Monk Fruit Extract	Powder / Liquid	Extract ratio or Mogroside V specification	Functional beverages, low-sugar food, supplements	COA / TDS / SDS
Licorice Extract	Powder / Liquid	Extract ratio, Glycyrrhizic Acid, Glabridin	Supplements, beverages, skincare	COA / TDS / SDS
Honeysuckle Extract	Powder / Liquid	Extract ratio, Chlorogenic Acid	Herbal drinks, supplements, skincare	COA / TDS / SDS
Ginger Extract	Powder / Liquid	Extract ratio, Gingerols	Functional beverages, herbal drinks, supplements	COA / TDS / SDS
Astragalus Extract	Powder / Liquid	Polysaccharides, Astragaloside IV	Supplements, functional foods	COA / TDS / SDS
Green Tea Extract	Powder / Liquid	Tea Polyphenols, EGCG, Catechins	Supplements, beverages, skincare	COA / TDS / SDS
Ginseng Extract	Powder / Liquid	Ginsenosides	Supplements, functional beverages, herbal nutrition	COA / TDS / SDS
Reishi Mushroom Extract	Powder / Liquid	Polysaccharides, Beta-glucan, Triterpenes	Supplements, functional foods	COA / TDS / SDS

Honeysuckle Extract

Available Form: Powder / Liquid | Specification Direction: Extract ratio, Chlorogenic Acid | Applications: Herbal drinks, supplements, skincare | Documents: COA / TDS / SDS available upon request.

Ginger Extract

Available Form: Powder / Liquid | Specification Direction: Extract ratio, Gingerols | Applications: Functional beverages, herbal drinks, supplements | Documents: COA / TDS / SDS available upon request.

Astragalus Extract

Available Form: Powder / Liquid | Specification Direction: Polysaccharides, Astragaloside IV | Applications: Supplements, functional foods | Documents: COA / TDS / SDS available upon request.

Green Tea Extract

Available Form: Powder / Liquid | Specification Direction: Tea Polyphenols, EGCG, Catechins | Applications: Supplements, beverages, skincare | Documents: COA / TDS / SDS available upon request.

Botanical Extract Product Notes

Specification and application directions - continued

Ginseng Extract

Available Form: Powder / Liquid | Specification Direction: Ginsenosides | Applications: Supplements, functional beverages, herbal nutrition | Documents: COA / TDS / SDS available upon request.

Reishi Mushroom Extract

Available Form: Powder / Liquid | Specification Direction: Polysaccharides, Beta-glucan, Triterpenes | Applications: Supplements, functional foods | Documents: COA / TDS / SDS available upon request.

Pueraria Extract

Available Form: Powder / Liquid | Specification Direction: Puerarin, Isoflavones | Applications: Supplements, herbal drinks, functional foods | Documents: COA / TDS / SDS available upon request.

Aloe Vera Extract

Available Form: Powder / Liquid | Specification Direction: Extract ratio or liquid specification | Applications: Beverages, skincare, personal care | Documents: COA / TDS / SDS available upon request.

Chamomile Extract

Available Form: Powder / Liquid | Specification Direction: Extract ratio | Applications: Skincare, personal care, herbal products | Documents: COA / TDS / SDS available upon request.

Centella Asiatica Extract

Available Form: Powder / Liquid | Specification Direction: Extract ratio or cosmetic-grade specification | Applications: Skincare, personal care | Documents: COA / TDS / SDS available upon request.

Featured Ingredients for Supplements & Functional Beverages

Products commonly used in supplement, food and beverage applications

Monk Fruit Extract For low-sugar beverage, food and supplement formulation concepts.	Green Tea Extract For supplement, beverage and natural formulation applications.
Ginger Extract For herbal drink and functional beverage concepts.	Honeysuckle Extract For herbal drink, botanical formula and functional food applications.
Astragalus Extract For dietary supplement and herbal nutrition applications.	Reishi Mushroom Extract For supplement and functional food formulations.
Licorice Extract For supplement, beverage and skincare formulation applications.	Collagen Peptide / Fish Collagen For beauty drinks, nutrition powders and supplement products.

Before quotation

Customers usually need to confirm product name, application, form, specification, active marker, grade, estimated quantity, target market, required documents and sample requirement.

Protein & Peptide Series

Ingredients for beauty drinks, nutrition products and cosmetics

Our protein and peptide series is suitable for beauty drinks, nutrition powders, dietary supplements, functional foods and cosmetic formulations.

These ingredients are widely used in beauty-from-within products, nutrition products, personal care products and functional formulations.

Customer Focus Points			Main Products	
Source, protein content, molecular weight, solubility, odor, color, heavy metals, microbiology, food/cosmetic grade, packaging and documents.			Collagen Peptide, Fish Collagen, Silk Peptide, Elastin Powder, Keratin Powder, Egg Albumin Protein Powder and Cubilose Peptide Powder.	
Product Name	Form	Product Direction	Applications	Documents
Collagen Peptide	Powder	Protein-based functional ingredient	Beauty drinks, nutrition powders, supplements	COA / TDS / SDS
Fish Collagen	Powder	Fish-derived collagen ingredient	Beauty drinks, supplements, food formulations	COA / TDS / SDS
Silk Peptide	Powder / Liquid	Silk-derived peptide ingredient	Skincare, personal care, cosmetic formulations	COA / TDS / SDS
Elastin Powder	Powder	Protein-based ingredient	Nutrition, beauty concept products, cosmetics	COA / TDS / SDS
Keratin Powder	Powder	Protein-based ingredient	Hair care, personal care, cosmetics	COA / TDS / SDS
Egg Albumin Protein Powder	Powder	Protein ingredient	Food, nutrition products	COA / TDS / SDS
Cubilose Peptide Powder	Powder	Specialty beauty ingredient	Beauty-from-within, supplement concepts	COA / TDS / SDS

Pearl Series

Pearl-derived ingredients for skincare and specialty beauty applications

Our pearl series includes pearl-derived ingredients for skincare formulations, beauty concept products and specialty cosmetic ingredient applications.

Pearl-derived ingredients are suitable for customers developing skincare, beauty, personal care and specialty natural cosmetic formulations.

Product Name	Form	Product Direction	Applications	Documents
Pearl Powder	Powder	Pearl-derived ingredient	Skincare, beauty concept products	COA / TDS / SDS
Ultrafine Pearl Powder	Fine Powder	Fine particle pearl ingredient	Cosmetic, skincare, beauty applications	COA / TDS / SDS
Water Soluble Pearl Powder	Powder	Water-soluble or water-dispersible direction	Skincare, cosmetic formulations	COA / TDS / SDS
Hydrolyzed Pearl	Liquid	Pearl-derived liquid ingredient	Skincare, lotion, facial mask, personal care	COA / TDS / SDS

Natural Cosmetic Ingredient Applications

Ingredient support for skincare and personal care formulations

We support natural cosmetic ingredients for skincare, facial mask, lotion, cream, hair care and personal care formulations.

Target Customers Cosmetic OEM/ODM manufacturers, skincare brands, facial mask manufacturers, personal care manufacturers, ingredient distributors and formulators.	Recommended Ingredients Centella, Aloe Vera, Chamomile, Licorice, Green Tea, Honeysuckle, Hydrolyzed Pearl, Pearl Powder, Silk Peptide, Witch Hazel, Purslane and Keratin.
Buyer Focus Points INCI name, appearance, odor, solubility, pH range, microbiology, heavy metals, preservative system, documents and sample availability.	

Supplement, Functional Food & Beverage Applications

Ingredients for supplement, beverage and nutrition product development

Target Customers Supplement manufacturers, nutraceutical brands, functional beverage companies, food ingredient distributors, herbal drink manufacturers and beauty drink brands.	Recommended Ingredients Monk Fruit, Green Tea, Ginger, Honeysuckle, Licorice, Astragalus, Ginseng, Reishi, Pueraria, Collagen Peptide, Fish Collagen, Pearl Powder and Aloe Vera.
Buyer Focus Points Food grade, specification, active marker, extract ratio, solubility, taste, color, heavy metals, microbiology, COA, TDS, SDS, MOQ, sample and lead time.	

Customization Capabilities

Flexible customization is one of our key advantages

Product Form Powder and liquid forms can be discussed according to product type and application.	Extract Ratio 4:1, 5:1, 10:1, 20:1 or customized extract ratio upon confirmation.
Active Marker Direction Mogroside V, Glycyrrhizic Acid, Chlorogenic Acid, Gingerols, Polysaccharides, EGCG, Ginsenosides, Beta-glucan, Puerarin and others.	Grade & Packaging Food grade or cosmetic grade; 1kg bag, 5kg carton, 25kg drum or customized packaging.
Customization principle Customization depends on product type, target application, required specification and order quantity.	

Sample, Packaging & Cooperation Process

From inquiry to sample evaluation and bulk order

1. Inquiry - customer shares product name, application, required specification and estimated quantity.
2. Specification confirmation - we confirm product form, extract ratio, active marker, grade, packaging and documentation requirements.
3. Sample evaluation - sample can be arranged for testing and formulation evaluation after specification confirmation.
4. Quotation - quotation is based on specification, quantity, packaging, documentation requirements and delivery terms.
5. Production and quality check - production is arranged according to confirmed requirements.
6. Export and delivery - export documents and shipment are arranged according to order terms.

Standard packaging examples

1kg aluminum foil bag, 5kg carton, 25kg carton, 25kg fiber drum, plastic drum for liquid products and customized packaging upon request.

Why Choose Huzhou Qiuxing

Stable supply, flexible customization and export service

Factory-Backed Supply Supported by our family-owned manufacturing factory with nearly 30 years of production experience.	Stable Product Resources Botanical extracts, protein & peptide ingredients and pearl series products.
Flexible Customization Powder and liquid forms, extract ratio, active marker and packaging options.	Documentation Support COA, TDS, SDS and product specification documents available upon request.
Application-Oriented Service Ingredient recommendations according to supplements, functional beverages, foods, beauty drinks and skincare formulations.	Long-Term Cooperation We aim to build long-term supply partnerships rather than one-time transactions.

Frequently Asked Questions

Answers for common buyer questions

Are you a factory or a trading company?

We are a factory-backed export supplier. Huzhou Qiuxing handles overseas sales, export coordination and customer service, while production is supported by our family-owned manufacturing factory with nearly 30 years of experience.

Can you provide samples?

Yes. Samples can be arranged after product name, specification, application and destination country are confirmed.

Can you customize specifications?

Yes. We can discuss customized powder or liquid form, extract ratio, active marker content, grade, packaging and documents according to customer requirements.

Can you provide COA, TDS and SDS?

Yes. COA, TDS and SDS can be provided depending on product type and confirmed specification.

Do you provide prices in the catalogue?

No. Prices depend on specification, quantity, packaging, documentation requirements and delivery terms.
